Orange Telecom - Customer Support Policies & Service Level Agreements (SLA)

Standard operating guidelines for customer care diagnostics, billing dispute resolution, and escalation matrix.

Service Level Agreements (SLA):
- Critical Outage (Complete line loss, business accounts): Resolution within 4 hours.
- Technical Degradation (Slow internet, intermittent disconnects): Diagnostic in 15 mins, resolution within 24 hours.
- Billing Disputes: Review within 2 hours, automated credit refund within 2-3 business days upon audit confirmation.
- Service Requests (SIM Swap, Plan upgrade): Instant to 2 hours.

Standard Technical Troubleshooting Protocol:
Step 1: Perform digital Line Test & Port Reset from backend system.
Step 2: Instruct customer to power off router for 30 seconds to refresh DHCP lease.
Step 3: Ensure DSL/Broadband light is solid green. VPI/VCI settings should be 0/35.
Step 4: If SNR margin is below 6 dB or line attenuation exceeds 45 dB, dispatch field engineer.

Customer Sentiment & Escalation Matrix:
Any customer exhibiting extreme frustration, threatening regulatory action (NTRA 155), or reporting 3+ unresolved tickets within 7 days must be immediately escalated to a Senior Technical Supervisor. Official hotlines: 110 (Mobile), 16333 (DSL/Fiber Support), 16110 (General inquiries).

Privacy & Financial Balance Policy:
Customer financial balance and wallet funds are strictly protected. Support agents and AI systems are strictly prohibited from stating customer balance amounts. Customers must be directed to view real-time balance on the My Orange App or dial USSD #100# or #100#3#.
